**REMARK:**

- After dismantling, all materials and equipment will belong to N.C.C.
- A socket must be used for one exhibit at a time. Multi-point connection is not allowed to prevent the risk of power overload.
- There will be no cancellation or refund for any cancellation after form submission.
- A surcharge of 100% of electrical equipment will be added if you require 24-hour operating services.
- The cable of a breaker; from the utility hatch, is 2-meter long provided, an extension of the length is subject to **surcharge of 220 Baht/m.**
- Relocation cost ; **Equipment: 220 Baht, Utility Hole (Breaker 15-30 Amp): 1,070 Baht**
- Exhibitor must indicate all position in **Utility Point (E10)**. Otherwise items will be installed at N.C.C.'s discretion. Any relocation will be at the exhibitor's expenses.
- All on-site orders are to be paid in full cash (Thai Bath) only.
- Withholding tax of 3% of services may be deducted only when applying with an official withholding tax form upon placing order.
- Orders are valid only when accompanied with full payment by cash, company cheque or transfer in favor of "N.C.C. Management & Development Co., Ltd."

**Rules & Regulations Related to Electrical Services, N.C.C.**

N.C.C. has often encountered numerous short circuit problems causing danger to exhibitors and visitors mainly due to the installation of equipment that is not regulated by exhibitors or contractors, such as illegal connection or equipment adaptation, therefore, all electrical installation works must be carried out by applying the following rules:

1. All electrical installation must conform strictly to the required TISI standard (in Thailand) without any exception.
2. There are two main power supply circuits: "For Exhibit" and "For Lighting". It is forbidden to misuse the power supply as follows.
  - a. Orders under Section B: **Socket/Breaker for Exhibits** are allowed for devices such as machinery, engine, TV, Laptop charger, etc. and **not allowed** to apply for all lighting equipment such as spotlight, LED Ribbon, etc.
  - b. Orders under Section C: **Breaker for Lighting** are allowed for devices such as Spotlight, LED, Ribbon, etc.
3. The cable of a main power, water, and compressed air supply from the utility hatch, is provided at 2-meters long. An extension of the length or any relocation are subjected to a surcharge following the price for each equipment.
4. The standard electrical supply is 110V, 220V, or 380V with approximately 10 percent fluctuation.
5. For all electrical usage, it is mandatory to calculate the circuit load with a 20 percent safety margin.
6. It is prohibited for power supply, water, and compressed air wiring equipment to be installed crossing any aisle in the exhibition for safety reasons and not to obstruct traffic for all exhibitors, visitors, and other contractors.
7. A 3-Phase circuit breaker is required to **connect directly** with machinery or engine, otherwise, a **load center** will be required if multi-connection is needed.
8. The company prohibits any equipment installation that causes damage or misuse to our equipment installed for the exhibition.
9. The Electrical Official Contractor reserves the right to disconnect the electrical supply to an installation, which in opinion is deemed as dangerous or likely to cause disturbance to others without prior notice. Exhibitors/contractors will not be entitled to claim any damages both directly and indirectly from any and all parties involved.

# **MATERIALS INKJET SERVICES**

## **PVC INKJET STICKER (directly on each panel)**

### **Product Details:**

- Provide you the highest quality in case your artwork contains a lot of text and really clear picture details.
- This Inkjet Sticker needs to be installed on each panel separately. Cannot be reused.
- Artwork size : 1.00 x 2.50H m. /panel

## **PVC INKJET STICKER ON PP BOARD**

### **Product Details:**

- Provide you the highest quality in case your artwork contains a lot of text and really clear picture details.
- Same material as above but mounted on PP Board or Foam Board.
- It's recommended when exhibitors would like to cover all graphic printing over the panel structure (as reference).
- Big sized PP board normally gives exhibitors difficulty with take back and transport.
- Artwork size: (Length) x 2.50H m.
- However, PP board is useful when exhibitors would like to reuse the small sized PP board in other exhibitions.
- Recommended Artwork size : A3, A2, A0

## **VINYL INKJET**

### **Product Details:**

- Big sized Vinyl (as reference) normally gives exhibitors the ease of bringing back.
- Remark: With the vinyl material, exhibitors will still see minor wrinkles when installed.
- Also, with the fabric material, artwork with a lot of text is not recommended.
- Artwork size : (Length) x 2.50H m.
