

Important Notice from GPE to Exhibitors regarding Unofficial Indices of Exhibitors – in particular Expo Guide, Fair Guide and International Fairs Directory

EXPO GUIDE, S.C., a company registered in Mexico, offers updated company information in an exhibitor's directory for fairs and exhibitions under the reference "Data Review / Validity expiration", which is fee-based. The fine print of these order forms indicates that upon signed to confirm, a contract is concluded for three (3) years that will generate costs of at least 1,000.00 € per annum.

Recently the Construct Data Publishers a.s., registered in Slovakia, is again offering a listing in its exhibitor's directory "Fair Guide". The approach is the same as with the "Expo Guide".

Currently, the International Fairs Directory is particularly prominent, which is known under the Mul-por Company S.A. and Connect Publisher, S.C. Here again, the payment obligations are mentioned in the small print.

Since many exhibitors have been receiving these proposals, we wish to make clear that the registrations offered to be made in the "Expo Guide", "Fair Guide" or "International Fairs Directory" are not official entries in the index of exhibitors for ASIA FRUIT LOGISTICA.

GPE is not connected in any way whatsoever to the publishers of these unofficial exhibitor directories.

We wish to indicate to our exhibitors that **GPE either produces its catalogues itself or awards exclusive contracts for the production and marketing of such catalogues.** Any publishing firms we work with will introduce themselves to the exhibitors as the exclusive catalogue publisher for GPE or ASIA FRUIT LOGISTICA.

For ASIA FRUIT LOGISTICA is our exclusive partner:

for the print catalogue: Fruitnet Media International GmbH

for the online catalogue: ASIA FRUIT LOGISTICA Virtual Platform

Once exhibitors have been admitted to ASIA FRUIT LOGISTICA, their basic entry in the official fair catalogue is assured. Furthermore, all exhibitors will be contacted by GPE organizing team so that they may complete their entries in the online catalogue should they so desire. ASIA FRUIT LOGISTICA Virtual Platform will be online before the event. During this period, exhibitors may update their entries as often as they like. Please feel free to contact us at info@gp-events.com at any time should you receive a proposal and have doubts as regards the party submitting such proposal.

If you have already signed an agreement with an external offer or in the erroneous assumption that this company is connected in any way to our official index of exhibitors, we urgently recommend that you contact an attorney **prior to expiry of the period for revoking and/or voiding such contracts.**

In AUMA (Association of the German Trade Fair Industry) website, you can also find further advice including a sample letter on how to react to reminders. (<http://www.auma.de/en/TippsForExhibitors/legalmatters/Expoguide/Seiten/Default.aspx>).
