Booth No. D07
China / 中国

Agrade Shanghai Company Limited, founded in 2012, began in agricultural trade. Over a decade, it rapidly expanded fresh fruit sales to over ten major Chinese cities, covering key economic zones. Guided by 'Mutual Success, Shared Rewards' among team, clients, and partners, Agrade Shanghai built a cohesive team. This drives progress in both supply chain and sales, enhancing reputation and building the brand. Quality-centric, its mature product lines gain steady market share through direct sourcing and source quality control. We believe a single fruit delivers genuine enjoyment of a better life. Finding beauty in simplicity, like life itself, Agrade Shanghai's mission is: Making delicious fruit accessible to all!

上海浩久实业2012年创立于上海,初期即聚焦于农产品国际贸易。10多年来,公司在鲜果领域的业务发展迅速,销售版图扩展至全国十余个主要城市,基本覆盖经济发达地区。以“相互成就,共享成果”为诉求,尤其注重与团队的相互成就,与客户的相互成就,与伙伴的相互成就,逐渐形成一支有着共同理念的专业团队,并借此在供应链和市场销售端同时发力,提升产品美誉度,创立品牌。优质产品是永恒的载体。公司的几大产品线日益成熟,在相应市场的市占率稳步提高,得益于我们的初衷--坚持做一手货源,从源头把控品质,因为我们坚信:一颗水果,不仅仅打开味蕾,并能带来美好生活的真实感受。水果就像生活,普普通通才是幸福,平平常常即是美好。所以我们的事业目标是--美味水果吃得起!

AQINA PINEAPPLE PEKOTI SDN. BHD. 亚齐纳水果有限公司

Booth No. C05
China / 中国

Aqina began pineapple cultivation in 2004 with the high-demand N36 variety and, within two years, expanded exports to Iran, Turkey, Japan, and Korea. Known for reliable service and top-quality produce, we secured multiple tenders from the Malaysian Pineapple Industry Board (MPIB) as an MD2 seed supplier. In 2009, we transitioned our 200-acre farm from N36 to MD2 with the help of experts from the Philippines. In 2015, Aqina obtained the MyGAP certification, recognizing our commitment to sustainable farming, worker welfare, and food safety. With over a decade of success, Aqina has proven expertise in pineapple trade.

亚齐纳自2004年开始种植凤梨,初期选择当时市场需求极高的N36品种,并在短短两年内成功将新鲜凤梨出口至伊朗、土耳其、日本和韩国。凭借稳定的服务和优质的产品,Aqina多次中标马来西亚凤梨工业局(MPIB)项目,成为MD2凤梨种苗的供应商。2009年,在与菲律宾专家合作下,亚齐纳将原有的200英亩N36种植园全面转型为MD2种植园。2015年,亚齐纳获得马来西亚农业及农基工业部颁发的MyGAP(良好农业规范)认证,彰显我们在可持续农业、员工福利与食品安全方面的高度承诺。至今,亚齐纳已稳健经营凤梨贸易超过十年,充分展现出我们在凤梨产业的专业能力与丰富经验。

Founded on December 26, 2016, Guizhou Guiwang Biotechnology Co., Ltd. is a national-level leading agricultural enterprise integrating R&D, cultivation, and sales of edible fungi, along with processing edible fungus raw materials and bio-organic fertilizers. Its registered capital is RMB 212.1041 million.

The company operates two plant sites. Upon full completion, its annual output value will exceed RMB 2 billion. Products sell well in 26 provinces/cities including Chongqing, Chengdu, Guiyang, Kunming, Guangzhou, and Zhuhai, receiving strong market recognition.

Currently employing over 1,500 workers across both plants—including over 500 from three key groups (relocated households, poverty-alleviated households, and landless farmers)—the company will create over 2,000 jobs after Plant II's full operation, enabling per capita annual income exceeding RMB 50,000 and boosting local employment and economic growth.

Upholding the principles of "innovation-driven, eco-friendly, and people-oriented" development, the company implements a closed-loop cycle ("resources → products → waste → renewable resources") with full industrial chain utilization, including self-produced packaging and waste processing. It continuously enhances talent development, internal management, market expansion, branding, and R&D innovation, while strengthening core intellectual property in strain technology to elevate product value. Additionally, it advances digital agriculture by integrating digital technologies into modern farming, driving industrial upgrading and new quality productive forces to empower high-quality edible mushroom industry development.

贵州贵旺生物科技有限公司成立于2016年12月26日，是一家集食用菌研发、种植、销售、食用菌原材料、生物有机肥加工为一体的国家级农业龙头企业，注册资金21210.41万元。

As an innovator in fresh-produce preservation technology, we have pioneered two breakthrough material technologies through independent R&D based on the respiratory metabolism characteristics of fruits and vegetables: microporous structural packaging materials and biodegradable modified atmosphere packaging (MAP) materials. This product series integrates both spontaneous atmosphere regulation for produce and industrial-grade heat-sealing capabilities, having been successfully implemented in the supply chain systems of leading beverage brands such as "Ning Ji". Leveraging the natural antimicrobial and antioxidant properties of plant-derived materials, our bacteriostatic preservation packaging system demonstrates marked advantages over conventional solutions.

作为生鲜保鲜技术领域的创新者，我们基于果蔬呼吸代谢特性，通过自主研发成功突破两大核心材料技术：微孔结构包装材料与可降解气调包装材料。该系列产品兼具果蔬自发气调功能与工业化热封性能，已成功应用于柠季等头部茶饮品牌供应链体系。依托植物源材料的天然抗菌抗氧化特性，我们开发的抑菌保鲜包装系统较传统方案具有显著优势。针对荔枝、柑橘、香水柠檬等高价值水果，可实现色泽稳定性提升40%以上，食用价值保持周期延长2-3倍，形成病理抑制（微生物防控）与生理调控（呼吸代谢管理）的双重保鲜机制。
